

L-BOX – large and smart

innovative packaging for gamma irradiated products

LASvendi...

www.lasvendi.com

The extended test run at a class A customer is finished. The new **L-BOX** now is available and will exchange the PE/PA-Laminate bags. The key advantages of the **L-BOX** are:

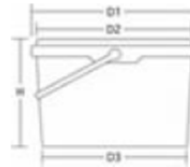

- outstanding product safety for sterilized products
- secure transport and storage at Euro pallet size
- excellent usability by carry handles
- easy disinfection of the surface (gas treatment or dip tank)
- minor storage volumes at the animal unite by good stackability
- comfortable emptying even under the cage changing station
